PITCH PINE TIMBER AND LUMBER CONDITIONS

REPORT FOR PAST WEEK SHOWS IMPROVEMENTS IN ALL LINES AND PROSPECTS ARE LOOKING UP FOR BOTH MILLS AND SHIPPERS.

The following is from the Gulf Coast Record for the week ending March 4th:

Sawn Timber.—Referring to our comments in last week's issue, a Mobile shipper writes as follows: "I read your article under the head of 'Sawn Timber,' and note that the Pensacola shippers think that the shippers here are selling at too low a price. I doubt if during the last two months any Mobile shipper has made a sale of 30 average as low as 53 d or 54 d, unless for an unsold deckload or for dark inferior timber. I am in pretty good touch with some of the most important shippers of sawn timber out of Mobile, and my opinion is that no sales have been made lately of 30 average at anything like as low as 54 d, and that not only are the Mobile shippers holding their stocks for a profit, but that an offer of less than 59 d for 30 average would not be considered at all. The shippers are not in any tight, having made but few charters and few sales, and I think will shortly be able to sell for 60 d or more for 30 cu ft average. Our Pensacola friends need never fear their Mobile friends underselling them."

The market is daily taking on new life, and an actual advance is reported at some points. The upward tendency is general. One of the mills in the Breton District has sold its March cut at 19c, f. o. b. cars, Pensacola. The coastwise demand for sawn is drawing heavily on stocks. This trade is assuming enormous proportions. Manufacturers at and contiguous to Mobile have instructed their brokers not to sell or contract at less than 19c. The cut is small and shippers who refuse to read the "handwriting on the wall" early in the season are without stock, even a very little can now be secured, even at full market values.

Sawn is selling freely at Pensacola at 19c, with very little on the market. Shippers are just now grasping actual conditions on the Gulf, as pictured in The Record for last week. There is now no earthly power that can stay the upward trend of the pitch pine market. The Mobile market is practically bare, and almost the entire cut is contracted, hence the cut goes direct to the shippers' booms. The only arrivals at Mobile were 400 pcs by rail, and the city mills made 1,500 pcs. Sales at Mobile were 1,000 pcs, 27 1/2 cu ft at 18c (this being based on two averages). Almost the entire stock of sawn at Mobile and Pensacola is either now loading or will go out during March on vessels already chartered. Stocks on the Gulf increased 3,000 pieces.

Logs.—The only arrivals at Mobile were 500 on the market. The market is firm. Among the sales were 370 logs, 215 ft av., (straight scale), at \$9.50.

Hewn.—The Market is active. There were no arrivals at Mobile this week. Stocks are eagerly sought after and shippers are paying full values. There are 2,000 pcs at Moss Point, Miss., and 500 pcs at Mobile.

Prime.—The demand is improving and bids fair to exceed the limited output. Shippers are inclined to contract for the available cut.

Hearted Flooring.—The cut falls far short of the demand. Values are advancing. There are no indications of any increase in the cut. Shippers are scouring the country for stock.

Kiln Dried Saps.—The market is beyond reach of the exporters. Interior prices are now \$3 above what the shipper can pay, hence some of the shippers are selling their stock here at home. The demand from the interior far exceeds the cut on the Gulf.

River Plate.—Business is offering in fair volume, and this, together with orders on hand, gives the mills all of this cutting that they care to handle. Business in the River Plate country continues excellent. The Province of Buenos Ayres closed 1904 with a surplus of five and one-half millions of dollars. Railroad extensions and improvements continue. The capital of the Cordoba & Rosario Ry has been increased to the extent of 432,000 pounds sterling. The Santa Fe Government has issued a report on the harvest of 1903-1904, showing that 1,462,297 tons of wheat and linseed were harvested, valued at \$96,758,446. Messrs. Evans, Thornton & Co., Buenos Ayres and London, advise that from Jan. 1st, 1905, Messrs. Guy Evans and W. G. Mackern, have been admitted to partnership, the firm name remaining unchanged.

Foreign.—Improvements in all lines is noted and values are stiffening. Mr. Peter Heidenreich, Hamburg, Ger., writes that he has established a saw and planing mill of large capacity and heavy stocks of pitch pine will be carried. This stock will be imported direct from the Gulf Coast mills. Mr. Manuel C. R. Tranguada, Funchal, Madeira Islands, desires samples of pitch pine. The Irish market is improving.

Interior.—The interior trade is active and values are firm with an actual advance in some instances. This, however, is due more to scarcity of stocks than to the demand. All of the mills are full and some are behind with orders, hence they are not inclined to take on new business. The Hand Lumber company, Dolive, Ala., reports excellent business. This concern has booked an order for 1,000, 000 ft standard cut decking at \$12. In this grade the mills are inclined to an advance of 50c, and an inquiry for 250,000 ft received by The McClure Lumber Co., Wagar, Ala., on which \$12 was offered, was declined at anything less than \$12.50, and some of the mills are now holding at \$13. Car factories continue to be the heaviest buyers. During the past fortnight the

various factories ordered 450 steel cars; 108 passenger cars; 763 flats; 1,211 box cars, 3 cabooses; 38 mail cars; 522 gondolas and 1,000 hopper cars, a total of 4,301 cars. The various roads also ordered 430 locomotives. Building in all parts of the country is breaking all records. Figures show that building in New York City for 1905 will far exceed all records. It is estimated that over \$250,000,000 will be expended. Sixty three of the mills comprising The Southern Lumber Mfrs. Association reports a net decrease since Jan. 1 of 12,416,160 ft. This is encouraging, but a weakening in values is reported, although there is 30 days' cutting ahead. Dealers have delayed buying, owing to the extremely cold weather. The Mississippi Valley and Wisconsin Valley Associations report January shipments of white pine 26,185,676 ft in excess of shipments for corresponding month of last year. All figures go to show that there will be no necessity for cutting prices in 1905. Dressed stock is in excellent demand. The mills report getting \$13 for No. 1 Com., 4-inch and "B," 4-inch \$15 to \$15.50. The report of the Southern Lumber Manufacturers Association, St. Louis, for January shows a total cut of 243,190,394 ft; total shipments, 246,556,403 ft; total exports, 16,968,867 ft; used locally, 23,879,061 ft. The following telegram from St. Louis gives the result of the meeting of Committee on values held in that city February 28th: "Committee recommended following advances: Hearted A. & B. edge grain flooring, \$2; C. edge grain, A. & B. flat, select No. 1 & No. 2 Com. and jointed flooring, \$1; 1/2" x 1/2" ceiling, \$1; 1/2" x 1/2" bevel siding, \$1.50; drop siding, \$1; finish casing, base and jamb, \$3; 12 inch, 14 and 16 feet No. 1 boards, ship-lap, 75c; 12-inch, 14 and 16 feet No. 2 boards, \$1; all other widths and lengths No. 1 & 2 boards, ship-lap, 50c; No. 1 fencing \$1; No. 2 fencing, 50c; No. 1 dimension, 50c; wagon bottoms, pickets, per \$1." The Georgia Mill Association and the Central Yellow Pine Association have won their suits, brought before the Interstate Commerce Commission, in reference to the advance of 2c on lumber shipments from the south.

Coastwise.—Business is brisk, and schedules amounting to 5,000,000 ft have been placed on the Gulf during the week. Among the buyers on the Gulf this week was Mr. L. B. Reiff, of Philadelphia, representing the Purchasing Department of the Pennsylvania Railroad. The demand comes from no one section, but extends from Baltimore to Montreal. Buyers commend the system of handling cargoes on the Gulf, when the mills hold the entire cargo until vessel arrive. On the Atlantic Coast the mills ship carloads into the docks where it is handled, piled and insured at buyers' expense. It is claimed that this balances up the \$1.50 difference

in freight rates. The coastwise demand is drawing heavily upon the sawn timber market of the Gulf, and depleting yet further the already small stock. The Crescent Lumber Co., doing a large coastwise trade, has bought 4,000,000 su ft of sawn, 30 cu ft av to fill out cargoes for this trade.

Texas Coast.—Business is brisk, the bulk of the cut going to the Northern markets. While the export business is dull, the mills have all of this cutting that they care to handle. About sixty million ft of logs are due at the Orange mills on the present rise in the rivers and the mills are receiving a steady supply by rail. Shipments of ties to Mexico are large.

Among the Mills.—Business is increasing in volume and values are stiffening all along the line. The following from one of the largest manufacturers is to the point: "From our point of view conditions of both export and interior trade are very satisfactory. This is particularly true of our interior business, which is the greatest in volume that we have ever had since the beginning of our operations, and at higher prices than we have ever before realized. The demand continues urgent, and we can see no prospect of any decline. We believe that unless some unforeseen condition should arise in the commercial world, nothing can prevent 1905 from being the banner year in the history of the yellow pine trade. Export conditions are very bright, present prices are strong, and we believe over present values in the near future. So far as our observation goes, the manufacturers are well supplied, but not over sold to any serious extent, and nearly all are profiting by their experience of last year and are inclined to be more conservative as to their production and sales."

The K. C. Lumber Co., Lunenburg, Miss., reports its modern plant running to its full capacity. Mr. F. B. Brown, secretary and treasurer, reports business good and increasing in volume.

Total Exports—29,042,547 ft and 72 pcs lumber, 12,068,167 ft sawn timber, 101,262 cu ft hevn, 3,187,842 ft cross-ties, 1,116 pcs piling, 300 bds lath, 362 pcs moulding, 5 logs, 8 bds and 2 lots sash and blinds.

Same week last year—25,495,319 ft lumber, 2,376,958 ft sawn timber, 13,886 cu ft hevn, 1,898,187 ft cross-ties, 750 pickets, 16 pkgs blinds, etc.

Gives Health, Vigor and Tone.
Herbina is a boon for sufferers from anaemia. By its use the blood is quickly regenerated and the color becomes normal. The drooping strength is diminished. Health, vigor and tone predominate. New life and happy activity results. Mrs. Belle H. Chirel, Middlesborough, Ill., writes: "I have been troubled with liver complaint and poor blood, and have found nothing to benefit me like Herbina. I hope never to be without it. I have wished I had known of it in my husband's lifetime." 50c. Sold by all druggists.

THREE DROWNED AT SANFORD, FLA., SUNDAY.
By Associated Press.
Sanford, Fla., March 7.—While boating on Lake Monticello Sunday night Miss Maggie Looney, of Thomasville, Ga., Otto McElroy and Rose Boyd, of this place, were drowned. The bodies were discovered to-day under the overturned boat.

Years of suffering relieved in a night. Itching piles yield at once to the curative properties of Doan's Ointment. Never fails. At any drug store, 50 cents.

REAR END COLLISION IN NEW YORK SUBWAY.
By Associated Press.
New York, March 7.—There was a rear end collision in the subway late this afternoon and it was first reported that four persons were killed and a number injured. Later reports stated that none were killed.

CURED CONSUMPTION.
Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We can not do without it. For coughs and colds it has no equal." 25c, 50c and \$1. Sold by all druggists.

THE STANDARD TRUST CO.
(Incorporated.)
Have you a mortgage on your home? Are you paying too much interest? We will lift it for you and carry it at 4 per cent simple interest. We will buy or build you a home on the same terms. The payments are easy—\$7.50 per month pays it back in 10 and a half years.
